

A box plot showing the distribution of Fault Type across four categories: B, IR, OR, and N. The y-axis represents a numerical value, ranging from 0 to 100. The x-axis is labeled 'Fault Type'. The plot shows that the 'OR' category has the highest median and the largest spread, while the 'N' category has the lowest median and the smallest spread. The 'B' category shows a high density of outliers.

Fault Type	Min	Q1	Median	Q3	Max	Outliers
B	~10	~15	~18	~25	~35	~25
IR	~25	~35	~38	~55	~75	0
OR	~15	~45	~60	~85	~100	0
N	~0	~0	~0	~0	~0	~1
